

Hyundai 65170 Generatore di corrente Silenziato 2 Kw

Product price:

423,62 € tax excluded

Product description:

Hyundai 65170 Silent Current Generator 2 Kw

Hyundai 65170: Silent and compact power generator for your needs

The Hyundai 65170 power generator is a portable inverter model designed to provide reliable and silent power in a variety of situations, from home use during power outages to outdoor activities such as camping, DIY and yard work.

Key features:

Rated (MF): 1.8 kW - Provides continuous and stable operation to power a wide range of low-consumption electrical devices.

Maximum (MF): 2.0 kW - Provides the necessary power to cope with consumption peaks or start electrically powered devices.

Inverter technology: Provides a clean and stable sine wave, ideal for powering sensitive electronic devices such as computers, smartphones and tablets.

Quiet: With a noise level of only 68 dB at 7 metres, the Hyundai 65170 is one of the quietest generators in its class, perfect for use in noise-sensitive environments such as campsites or gardens.

Lightweight and compact: With its weight of only 18 kg and compact dimensions (460x295x460 mm), the Hyundai 65170 is easy to transport and store.

4.2 L fuel tank: Offers a working autonomy of approximately 5 hours at rated load.

Voltage regulation type: INVERTER - protecting connected devices from voltage peaks that could

damage them.

Displacement: 79 cc - Indicates the capacity of the engine cylinder, which influences the power output.

Recoil start: Requires the physical effort of the user to start the engine, but provides greater autonomy than electric start.

12V output: Allows you to recharge batteries or power other low-voltage devices.

Robust and durable design: Ensures a long service life.

Technical specifications Hyundai silenced power generator:

Potenza nominale (MF): 1.8 kW

Potenza massima (MF): 2.0 kW

Tensione - Frequenza: 230V/50Hz

Serbatoio carburante: 4,2 L

Tipo regolazione tensione: INVERTER

Cilindrata: 79 cc

Rumorosità: 68 Db

Peso: 18 Kg

Dimensioni prodotto: 460x295x460 mm

Product features:

Tipo fase: Monofase

Potenza massima monofase (KW): 2

Frequenza (Hz): 50

Tensione (V): 230

Avviamento: Manuale

Cilindrata (cm³): 79

Dimensioni prodotto (mm): 460 x 295 x 460

Capacità serbatoio carburante (L): 4.2

Regolatore di tensione: Inverter

Peso (Kg): 18
